Software Install software.		

- Once you have done the previous, you will be presented with a page that tells you what applications you can download on your PC, laptop or Mac. The system will detect your current system e.g. Windows or Mac and adjust the list accordingly.
- This page will install the latest version of Office.
  Select your preferred language and click Install.
- Follow the Office installation process and you may have to restart your PC at the end of this process.
