

# Digital Accessibility Statement for Sophos Mobile

This accessibility statement applies to Sophos Mobile.

Sophos Mobile is provided by Sophos on behalf of the University of Huddersfield. We want as many people as possible to be able to use this website. For example, you should be able to:

- change colours, contrast levels and fonts
- zoom in up to 300% without the text spilling off the screen
- navigate most of the website using just a keyboard
- navigate most of the website using speech recognition software
- listen to most of the website using a screen reader (including the most recent versions of JAWS, NVDA and VoiceOver)

We've also made the website text as simple as possible to understand.

[AbilityNet](#) has advice on making your device easier to use if you have a disability.

## How accessible this website is

### Known Fails:

Some functionality of Sophos Mobile Admin doesn't meet a WCAG criterion due to limitations of PrimeFaces, a third-party Java component. These issues are raised with the third-party developers.

[Sophos's Accessibility Conformance Report](#) has identified the platform as mainly compliant WCAG 2.2 level AA accessibility standard where applicable.

## Feedback and contact information
