Uni-WiFi

A guide to connecting to Uni-WiFi on Windows 10
Uni-WiFi on Windows 10

- Go to the Wi-Fi option in the bottom right and choose **Uni-WiFi** and press connect
You will be prompted to input your **Identity**, this is your University username e.g. U1234567 and **Password**, this is your University password.

Then click **OK**, once done.
Uni-WiFi on Windows 10

- You are now connected to the Uni-WiFi and should have access to the Internet
