

UniDesktop for iPad

A Guide to Connecting to UniDesktop on your iPad or iPhone

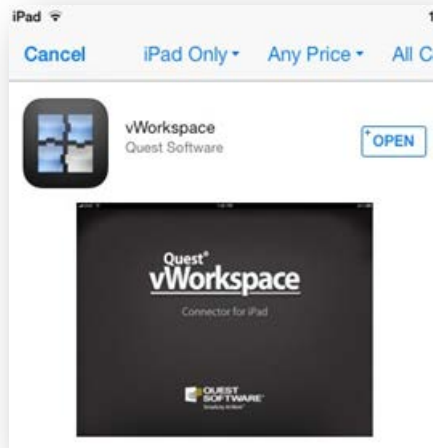

UniDesktop for iPad/iPhone

UniDesktop is a service that enables you to access software and a university desktop from home. The first time you access UniDesktop on your iPad/iPhone, you will need to install the 'Quest vWorkspace Connector'.

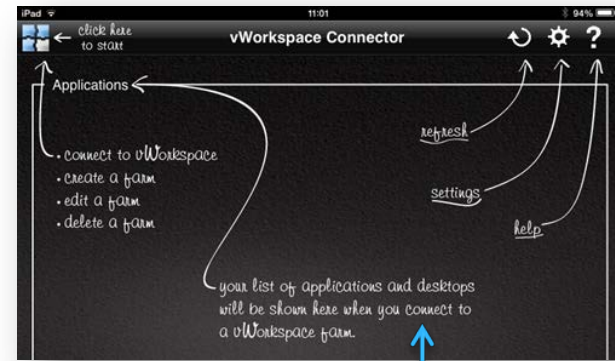

This guide shows you how to install the 'connector'.

UniDesktop for iPad/iPhone

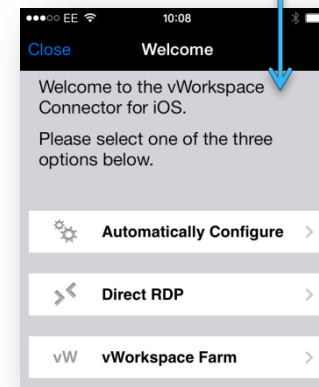

1. Go to the 'App Store' on your device and download 'vWorkSpace'
2. When you first open the application the first screen you see should look like this....

On an iPad

Or on iPhone

UniDesktop for iPad/iPhone

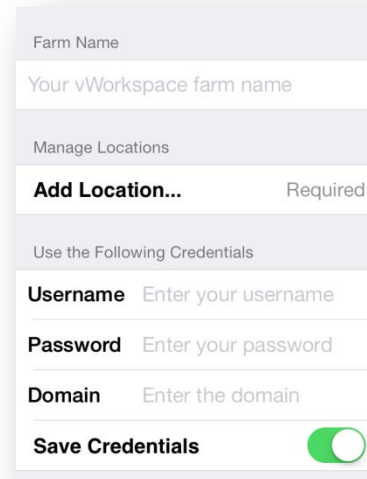

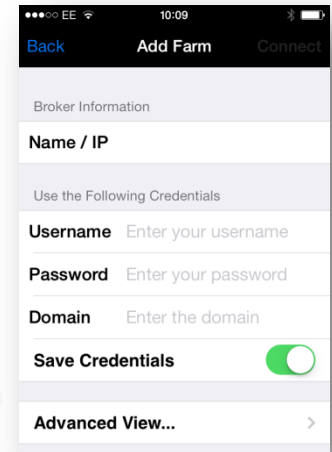

3. Click on this button and select 'Add Connection' and then select 'vWorkspace Farm'

OR on an iPhone select 'vWorkspace Farm'

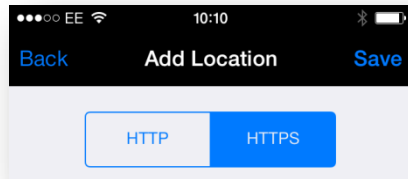

4. Select Advanced View

5. For 'Farm Name' type UniDesktop and then click 'Add Location'

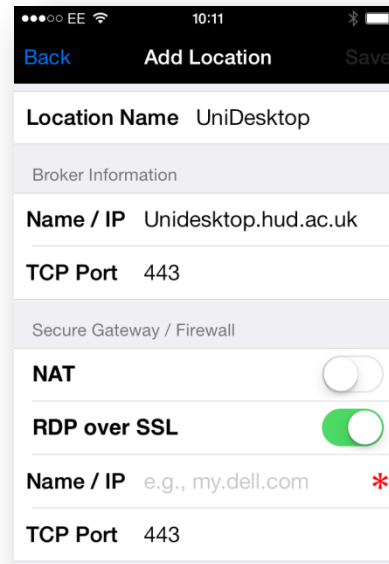

UniDesktop for iPad/iPhone

6. Make sure you select HTTPS

7. Enter these details into 'Add Location':

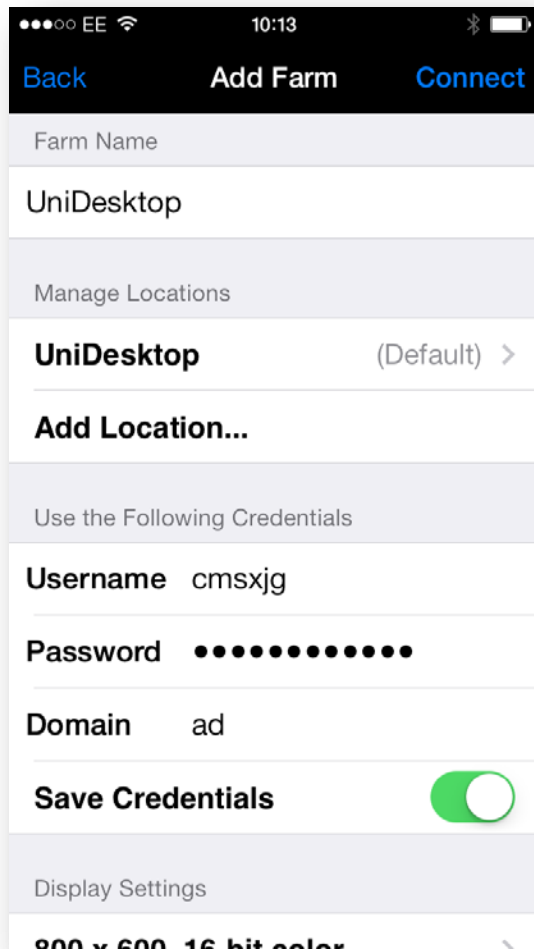

- Location Name: UniDesktop
- Name/IP: Unidesktop.hud.ac.uk
- TCP Port: 443
- RDP over SSL: ON
- Name/IP: unidesktop.hud.ac.uk
- TCP Port: 443

8. Press Save (top right corner). This will return you to the Add Workspace Farm screen shown on the next page.

9. Enter your University username and password

10. Enter 'ad' into the Domain Field

Note: If you wish to save your credentials (username and password) so you do not have to re-enter them, select 'ON' using the swipe button.

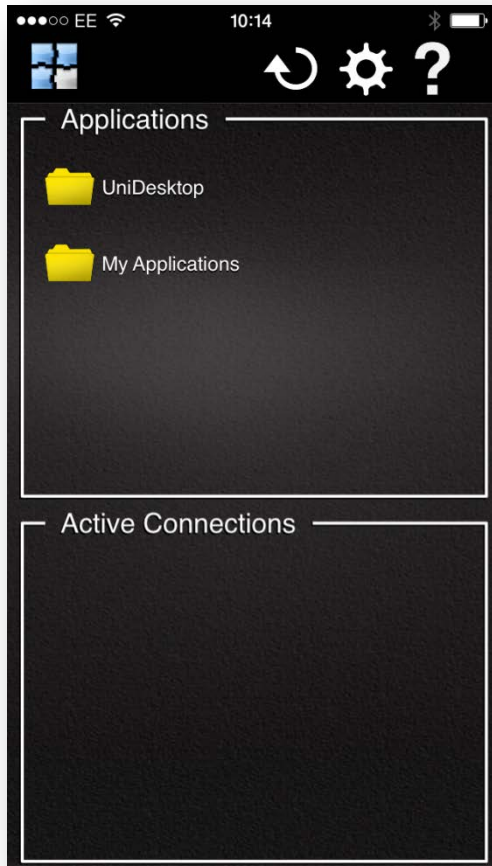

11. Select play remote audio on 'Local Device' and then press 'Connect' in the top right corner.

UniDesktop for iPad/iPhone

12. You should then see a screen like this...

You are now able to access a full desktop or any of the individual applications. If you have any problems in configuring your device or accessing the desktop/application please call IT Support on 01484 473737 or call in at the IT Support desk.
